LIST OF ATTACHEMENTS		
Lp.	**Attachements**	**Comments**

List of used abbreviations, symbols and terms

LIST OF USED ABBREVIATIONS, SYMBOLS AND TERMS	
Abbreviation/term	**Definition**
MyStore	The name of the online store
Highest (Critical bug)	Blocks further system tests
High	Significant defect, unable to test key system functionality
Medium	Medium defect, does not affect key system functions. It is possible to continue testing.
Low	Minor defect, minimal system impact
Lowest	Insignificant defect, e.g. a typo in the page content

Table Of Contents

1. Tests summary

On November 6-7, 2021, functional tests of the MyStore application were performed. On November 20, 2021, retests of the corrected version of the MyStore application were performed.

The tests were performed by an independent testing team.

As a result of the conducted testing activities, 206 errors were detected, including 24 critical errors, 4 of which haven't been resolved.

2. Test schedule

• 6-7.11.2021 Functional tests of the development version of the MyStore application and static testing of the requirements specification

• 20.11.2021 Retests and regression tests of the production version of the MyStore application

• 21.11.2021 Completion of tests and summary report from the tests

3. Fulfillment of the criteria

2.1. Entry criteria

Entry criterion	Fulfillment
Availability of a properly configured test environment,	YES
Availability of test tools,	YES
Access to the current version of the tested product	YES
Availability of test data	YES
Accepted test documentation	YES
Accepted test schedule	YES
Fulfilled logistic and organizational conditions,	YES
Availability of the current version of the specification	YES

Exit criterion	Fulfillment
100% of the planned test cases were executed	NO
At least 85% of test cases completed successfully	NO
All Highest and High Errors have been removed	NO
The budget for scheduled tests has been exhausted	NO
The time allotted for test activities has been exceeded	YES

3. Test results

Status	Highest	High	Medium	Low	Sum
Open	3	3	3	2	11
Fail	2	0	4	6	12
Pass	22	35	38	25	120
Total	27	38	45	33	143

4. Defects

Status	Highest	High	Medium	Low	Lowest	Sum
In Progress	0	3	6	0	0	9
To do	4	6	65	11	4	90
Ready	20	31	40	15	1	107
Total	24	40	111	26	5	206

5. Recomendation

In my opinion, the application in its current state is suitable for implementation. Most of the detected critical errors have been fixed, and those still not eliminated, do not affect the main functionalities of the application.
